

TIME-DOTS-IMAGE - from horoscope to color image

Tobias Krug and Petra Renner

A TIME-DOTS-IMAGE is an artistic, visual expression of a horoscope. It portrays the color mixture in quality and quantity according to the position of the planets. Each planet and each Ascendant sign is assigned its own color.

An artistic interpretation of a quality of time

Dot-Surface-Color

The artistic transformation of a horoscope into a TIME-DOTS-IMAGE allows for the sensory perception of a planetary constellation. The most striking feature is the use of three basic elements: the dot, the surface and the color. The underlying content, the three regular sizes in the shape of dots, appears playful but is based on precise structural principles.

- The dot itself represents the circular form of the archetypal symbol of the Sun, and for us it is tantamount to the central life force and vitality.
- The surface resulting from the distribution of the dots is embedded in the respective color of the Ascendant.
- The color plays an important role in the visual language. Dots in different colors and nuances as well as in different numbers and sizes, spread around freely and based on visible principles of arrangement, allow for an unusual and unfamiliar interplay of color and form.

This results into a new, personal statement.

Presentation concept of the TIME-DOTS-IMAGES

The size of the dots is designed according to the position of a planet in the zodiac. If the planet is in a cardinal sign, large dots are used; in a fixed sign the dots are of medium size, and mutable signs are represented by small dots.

Large	Medium	Small	
			
Aries	Leo	Sagittarius	FIRE
Libra	Aquarius	Gemini	AIR
Capricorn	Taurus	Virgo	EARTH
Cancer	Scorpio	Pisces	WATER
cardinal initiating	fixed stabilizing	mutable renewing	astrologische Quality

Another structural element is the differentiation of the dots into transparent or non-transparent quality. Is the planet positioned in a so-called feminine sign, the dots are transparent, but in a masculine sign they are non-transparent.

NON-TRANSPARENT	TRANSPARENT
	
Aries	Capricorn
Libra	Cancer
Leo	Taurus
Aquarius	Scorpio
Sagittarius	Virgo
Gemini	Pisces
Masculine signs	Feminine signs

Colors of the planets

Moon (mon)
Sun (son)
Mercury (mer)
Venus (ven)
Mars (mar)
Jupiter (jup)
Saturn (sat)
Uranus (ura)
Neptune (nep)
Pluto (plu)

Method of calculation of the TIME-DOTS-IMAGES

The calculation of the number of dots is based on the concept of midpoints acc. to Reinhold Ebertin. The number of dots is calculated from the ratio of the distance (measured in degrees) between the planets in their respective signs.

Example

21.12.2020 18:21 (GMT+1) ~ N: 48°8 0': 11°34

☐ asc 25° can
ven 07° sag 32% O F
son 00° cap 03% T G
mer 01° cap 03% T G
plu 23° cap 04% T G
jup 00° aqu 01% O M

Colors of the Ascendant

Aries (ari)	<input type="checkbox"/>
Taurus (tau)	<input type="checkbox"/>
Leo (leo)	<input type="checkbox"/>
Virgo (vir)	<input type="checkbox"/>
Libra (lib)	<input type="checkbox"/>
Scorpio (sco)	<input type="checkbox"/>
Sagittarius (sag)	<input type="checkbox"/>
Capricorn (cap)	<input type="checkbox"/>
Aquarius (aqu)	<input type="checkbox"/>
Pisces (pis)	<input type="checkbox"/>

TIME-DOTS-IMAGE

was founded by Tobias Krug and Petra Renner on 9/2/2018 in Utting am Ammersee (Germany). They got to know each other during an art exhibition of the artists group "Vis à Vis" in Eresing. Together they worked on transforming the time quality of a horoscope into an experience of sensory perception. They developed the appearance and artistic realization of the TIME-DOTS-IMAGE.

Tobias Krug, a glass and multi-media artist, and representative of "Concrete Futurism". He is a member of the European artists group FREQUENZEN e.V.. Since 1998 he has devoted his attention to the subject of "Space and Time" and how "Time" can be visualized in different forms of expression.

Petra Renner, Astrologer and pedagogue, active in the artistic-practical realm for a long time. For many years, she has supported people in their personal development, in motivation and creativity, by conveying knowledge and teaching strategies.
